#### Cornet Pişirme Fırını

- Gofret hamuru yaprak formunda pişirerek konik ekipmanlar aracılığıyla külah şeklini veren makinedir.
- Standart olarak 60 kalıplı üretilir ve dakikada 70-80 adet külah gofret üretilir.
- Mekanizmaların tamamı servo motorlar ile kontrol edilir.
- Otomatik olarak PLC ekrandan kontrol edilebilir.
- Külah gofretlerin dışında otomatik olarak kağıt giydirilebilir.

#### Wafer Cone Baking Oven Unit

- It is the unit that covers all the processes in which the dough is baked by pouring it onto molds, then curled with conical rolling mechanism and turned into a cone.
- In our standards, the oven has 60 plates and it gives between 70-80 pieces cone in a minute.
- The mechanical parts are controlled with servo motors.-Whole unit controls are done by PLC touch screen.
- After the folding process, wafer cones come to the automatic paper placing in section.
